

Objective

Since September 1st, 2020, the CSG (**Contribution Sociale Généralisée**) replaces the contribution to the NPF (National Pension Fund).

- Thus on monthly salaries less or equal to Rs 50,000 a rate of 1.5% will be due for the salary part and 3% for the employer's part.
- For monthly salaries above Rs 50,000, a rate of 3% will be due for the salary part and 6% for the employer part.

How to do this ?

This new rule has been automatically implemented in Payroll Mauritius (with a new payroll section 4010 - CSG (instead of 4000 - NPS)).

You don't have to do anything.
